## About Us

Welcome to Science Academy, an initiative by Happy group under the guidance of Mr. Jagdish Kr. Adlakha. Science Academy is a destination for premier IIT- JEE and NEET coaching. With a legacy of 32 Years of Excellence in school and a proven track record of board results, we are dedicated to helping students achieve their dreams of securing a place in the top engineering and medical institutes in India.

## Why Choose Us ?

**Experienced Faculty:** Learn from IITians, NITians, and doctors who bring their rich academic backgrounds and years of teaching experience to the classroom.

**Comprehensive Study Material:** Access meticulously curated study materials, including theory notes, problem sets, and previous years' question papers.

**Personalized Attention:** Small batch sizes ensure individual attention, allowing for customized learning experiences and doubt-clearing sessions.

**State-of-the-Art Infrastructure:** Modern classrooms equipped with the latest technology to facilitate an interactive and engaging learning environment.

**Library Facility:** Our library boasts a vast collection of books, including textbooks, reference materials, competitive exam guides, journals, and magazines covering all subjects related to IIT - JEE and NEET.

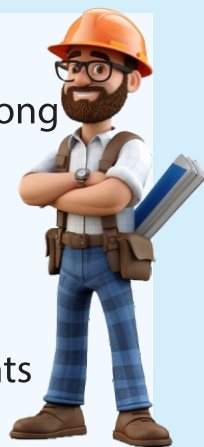

## Programs Offered

### IIT JEE Coaching

**Two-Year Program:** Designed for students in Class 11, this program builds a strong foundation and progressively covers the entire IIT JEE syllabus.

**One-Year Program:** Tailored for Class 12 students and repeaters, focusing on rigorous practice and in-depth understanding of concepts.

**Crash Course:** An intensive course for last-minute preparation, ensuring students are exam-ready with comprehensive revisions and mock tests.

### NEET Coaching

**Two-Year Program:** For students starting from Class 11, emphasizing a solid grasp of PCB (Physics, Chemistry, Biology) fundamentals and advanced concepts.

**One-Year Program:** For Class 12 students and repeaters, concentrating on extensive practice, conceptual clarity, and application-based learning.

**Crash Course:** A short-term, high-intensity program aimed at thorough revision and maximum performance in the NEET exam.

Perfect mix of  
**CLASSROOM** Program aided  
with technology for sure **SUCCESS**

Features which will keep you ahead in competition

## Customization feature for Deep - Learning

In Classroom Batches, faculties guide and refer students to important books and topics for preparation. With Online Support, students get an exceptional feature of customization through Conceptual Problem Sheet (CPS). Generally, students take mock tests covering different topics, but despite their efforts, they cannot score well. By analyzing & evaluating their performances. We discovered students were lacking in several subtopics and needed to practice them.

## Exclusive Well-Researched & drafted Study Material

In Classroom Batches, students get access to the entire printed study material with a revision kit for better preparation. Students have the benefit of Science Academy they can access 15000+ questions along with the solutions and theory for the entire syllabus.

## Doubt- solving facilities

In Classroom Batches Students can interact with Classroom teachers during doubt-solving sessions.

## Regular Assessments & Consistent Communication with Students & Parents

Weekly tests, monthly mock exams, and performance analytics to track progress and identify areas for improvement. In Classroom Batches, we regularly keep parents and students updated with the test score. In addition, we have a separate Academic Team whom individuals may coordinate at any time.
